THE MANAGEMENT OF "PRODUCERS"

S O MUCH depends upon the management of an oil company that it is well to become thoroughly acquainted with the CAPABILITIES and the REPUTATION and the EXPERIENCES of those in charge. PRODUCERS has every reason to be proud of its OF-FICERS. The following information relative to these men will be of interest to all those who are in any manner interested in OIL DEVELOPMENT:

MR. T. W. OWEN (widely known as "TOM" OWEN), the president, has been for the past 20 years one of the most successful individual oil operators of the southwestern oil fields. His personal fortune, estimated in the millions, was made from development and production of petroleum.

TOM OWEN was one of the original incorporators of the Forest Oil company, which was capitalized at \$100,000 and later sold out for \$4,250,000. In addition he is one of the original incorporators of the Lone Star Gas company. Mr. Owen is one of the best known capitalists in Texas and one of the most successful oil operators in the southwestern oil fields. He is a selfmade man in every sense of the word and has learned and mastered the oil business from the ground up. He is careful, conservative and honorable.

S. W. MANNING, the vice president, is well known throughout the oil fields and the entire southwest as a capitalist and successful operator. He is an officer and director of one of the largest banks of Mineral Wells, Texas. Mr. Manning grew up with the oil fields and knows every phase of the oil business, as attested by the large fortune which he has accumulated through his successful oil operations. He is one of the heirs of the famous Manning wells of Stephens county, Texas.

R. H. MANNING, the secretary-treasurer, is secretarytreasurer and the active head of Manning & Co., El Paso stock brokers. He is vice president of the El Pasa stock exchange and traffic manager of the Mascott & Western railroad. Mr. Manning has bad many years' experience in the oil development and stock brokerage business and accumulated a fortune. He is one of the heirs to the famous Manning oil wells of Stephens county, Texas.

With a MANAGEMENT so DEPENDABLE—with RE-SOURCES ample to DRIVE THROUGH its PROGRAM of DRILLING, regardless of STOCK SALES — with SUBSTANTIAL INTERESTS in FOUR WELLS almost READY to DRILL IN and with HUNDREDS of ACRES of REAL OIL LAND, "PRODUCERS" already holds an ENVIABLE POSITION among GOOD oil companies.

Further details will appear tomorrow and daily thereafter. The books of the company will be open for subscriptions on Monday, Morch I.
